SimplyGo Mini

Portable oxygen
concentrator

Be simply confident
on the go

SimplyGo Mini is a reliable,
powerful choice in lightweight
portable oxygen concentrators

Are you living your life? Taking trips to the store, museum or a musical? Spending weekends away with friends and family? If you use portable oxygen, SimplyGo Mini is a powerful choice for a reliable and lightweight portable oxygen concentrator that can help you do what you want, when you want.

Reliability you can count on

We built SimplyGo Mini to be tough. During development, SimplyGo Mini was rigorously tested in real world environments including impacts, vibrations, and temperatures to deliver reliable performance day in and day out.

Delivering more when you're on the go

SimplyGo Mini has the ability to deliver **nearly 20% more oxygen** than the nearest competitive portable oxygen concentrator weighing 5 lbs. or less.*

From a walk in the park to an overnight trip, SimplyGo Mini may help you remain active and provide you with flexibility while on the go.

*When devices are operated at their maximum settings.

You have the **power**

SimplyGo Mini offers easy-to-change lithium ion battery options with standard AC and DC power cords that add convenience and flexibility.

Choose the power option that works best for your lifestyle needs

Available battery options:

- Standard battery for battery duration up to 4.5 hours* (pulse setting of 2 at 20 BPM). Resulting in total SimplyGo Mini weight of 5 lbs.
- Extended battery for battery duration up to 9 hours* (pulse setting of 2 at 20 BPM). Resulting in total SimplyGo Mini weight of 6 lbs.

*Battery duration times are based on new, fully charged batteries used with a new SimplyGo Mini system. Battery duration times will degrade with battery age, environmental operating conditions, use over time, and operational condition of the concentrator.
